Mrs. Gerty O'Leary  
202 Dunklin Drive  
Herculaneum, Missouri 63048

Dear Mrs. O'Leary:

RE: Speciation and Bioavailability Sampling in Herculaneum

Please find enclosed a copy of a draft Sampling Plan for additional sampling in Herculaneum to determine lead sources and their relative Bioavailability. This information will help determine the origin of lead in soils, road dust, and house dust as well as the health risk posed by lead species found in Herculaneum. I am sending you this draft in order to give the Community Action Group (CAG) an opportunity to provide input into the sampling event. I am requesting that you provide me with comments by July 30, 2004. My address is 901 North 5<sup>th</sup> Street, Kansas City, Kansas 66101, my fax # is 913-551-7755, and my email address is Morrison.Bruce@EPA.GOV.

Please call me at 1-800-223-0425 or 913-551-7755 if you have any questions concerning this matter. Thank you.

Sincerely,

Bruce A. Morrison
